Invitation to the Virtual BaSS Symposium

Dear Colleagues Members of the Balkan Stomatological Society (BaSS),

We hope this letter finds you and your families healthy and safe. We have and are experiencing a terrible effect of this Covid-19 pandemic to our lives, our social conducts and our professional and scientific activities. The BaSS Council had to postpone last year's 25th BaSS Congress in Sarajevo, Bosnia-Herzegovina, for this year and hopefully for this coming October. However, it is very important for BaSS to have scientific activities even in such times as the ones we are living in, in order to fulfil its goal to stand by the Balkan dentists and enrich them scientifically.

The modern technologies allow us to organize events not in the manner we were used to (face to face meetings with scientific sessions and social events) but virtual ones where we can still disseminate scientific knowledge among our colleagues in the Balkans.

After a positive answer from the BaSS Executive Committee the Greek delegation of BaSS in collaboration with the Dental Association of Thessaloniki will initiate the virtual events for BaSS by organizing the first virtual BaSS Symposium on the 22nd of May featuring speakers from the Balkan Countries that work abroad and are willing to share their knowledge and expertise with us. We sincerely hope that this endeavor will be embraced by all of you and this event will become a pioneer for more future virtual events which will bring us closer even after this pandemic becomes history. Of course, we are still looking forward to our 25th BaSS Congress in Sarajevo in October, to see each other face to face and enjoy the scientific and social gathering, they way we were doing so, for so many years.

So, we invite you to register free of charge as soon as possible to this first virtual BaSS Symposium to be held on the 22nd of May and kindly ask you to extend this invitation to dental professionals in your countries. The number of participants will show the strength of BaSS in the Balkan countries and will help us get commercial sponsorship to be able to continue having such scientific events.

Thessaloniki April 2021

Professor Argirios Pissiotis

Immediate Past President of BaSS

Dr. Konstantinos Kougias

President of the Thessaloniki
Dental Association

22 May 2021

 Virtual Conference
