D. Tatakis

FIRST ANNOUNCEMENT

PRESIDENT 'S MESSAGE

Dear Colleagues,

The Department of Periodontology of the Dental Faculty of Aristotle University has the pleasure to announce the International Congress of Periodontology titled "New perspectives in Periodontology" which will take place in Thessaloniki, 19-20 of May 2023, at the Hotel Electra Palace.

The Organizing Committee has invited well known researchers and clinicians from Europe and the USA who will share with you their 'state of the art' knowledge in the fields of Periodontology and Implant Dentistry.

We believe, that offering of high-quality scientific events by experts with international recognition is very important for the Dental Community. Nevertheless, it is quite a long time, since the colleagues in northern Greece had the opportunity to attend a meeting hosting distinguished speakers in the field of Periodontology. Furthermore, small group hands-on workshops on cutting edge clinical topics will be offered by master clinicians recognized trainers.

The city of Thessaloniki, also called "the Nymph of Thermaikos Gulf", offers many possibilities and is an attractive destination especially in May when there are ideal weather conditions. The city is renowned for its festivals, events, good food and vibrant cultural life in general and is considered to be Greece's cultural capital.

On behalf of the Organizing Committee, I am delighted to invite you all to this special event and I encourage you to make the arrangements for your participation also taking advantage of the special early bird registration offer.

We can assure you that we will do our best to fulfill your expectations and hope that you will spend a constructive and pleasant weekend in Thessaloniki.

Dr. Ioannis Vouros

Professor, Aristotle University of Thessaloniki
President of the Organizing Committee

19-20 MAY 2023

SCIENTIFIC PROGRAM
Friday, May 19th, 2023

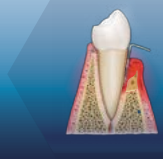
14:00 - 15:00	Light lunch
15:00 - 16:00	New perspectives in the treatment of gummy smile **D. Tatakis**
16:00 - 17:00	Satellite Lecture
17:00 - 18:00	Immediate loading of dental implants in conjunction with bone grafting **G. Romanos**
18:00 - 18.30	Discussion
19:00	Opening Ceremony



Invited Speakers
N. Donos
K. Jepsen
S. Jepsen
G. Romanos
A. Sculean
D. Tatakis

SCIENTIFIC PROGRAM

Saturday, May 20th, 2023

09:00 - 10:00	Root coverage techniques. How predictable is the outcome **A. Sculean**
10:00 - 10:45	Soft tissue substitutes around teeth and implants for aesthetics, health and function **K. Jepsen**
10:45 - 12:00	Coffee break
12:00 - 13:00	Alveolar Ridge Preservation for implant placement. Biological principles and treatment modalities. **N. Donos**
13:00 - 14:00	Management of furcation-involved molars. Current concepts and new perspectives. **K. Jepsen and S. Jepsen**
14:00 - 14:30	Discussion-Closing remarks
15:00 - 17:00	Hands-on
